Introduction

The Time and Leave Reporting (TLR) application is available to all hourly employees. TLR streamlines the process of reporting time.

TLR allows hourly employees to submit a timesheet and review past timesheets.

Login

Logon credentials required for TLR are employee System Identifier (SID) and Personal Identification Number (PIN) (Figure 1). If assistance with credentials is required, please contact your Payroll Services department. Note when entering a SID and PIN use digits (numbers) only.

**Timesheet History**

The Timesheet History page allows all employees to search through previously created and submitted timesheets. To review timesheet history, click on the “Timesheet History” link in the navigation pane (Figure 7). By default, you will see the five latest timesheets; they can also be searched by start and end date. To specify dates for a search, type dates directly into the Start/End Date textboxes or click on the calendar icons to the right of the textboxes and select the appropriate dates. When finished entering dates, click on the “Search” button to run the search. Results will be displayed below the “Search” button.
