

Accounting

The Language of Business and Career of Opportunities

The Accounting program at Lake Washington Institute of Technology provides you with comprehensive training that will keep you in constant demand and open doors to numerous types of career opportunities. Whether you're a recent high school graduate or currently in the workforce and looking for a new career, this program will provide you with the necessary skills to help you find employment in the Accounting field.

The primary goal of this program is to prepare students to use computerized and manual accounting applications. Students engage in an academic environment and gain fundamental skills that are essential for preparing accounting statements and reports. Accounting students learn the most updated information on income tax laws, changing accounting standards, computerized accounting and more.

In two years you can obtain an Accounting Associate in Applied Science (AAS) degree or you can pick from several short certificates that can be completed in as little as two quarters.

"I found the most hands-on personal attention at LWTech. I especially appreciate Rex Jacobsen, my accounting instructor who is helping me reach my goal."

— Lise, Accounting AAS Student
