

#MoveAhead with ADULTED

Get the Skills You Need to Get Back to Work

If the COVID-19 pandemic has left you without a job, and you are struggling to find work because you lack a high school diploma or industry training, LWTech's adult education program can help you get the skills you need for a new job – one you can support a family on.

LWTech adult education programs currently are providing instruction online. CDC guidelines and sanitation protocols are in place for in-person instruction to ensure a safe learning environment.

How Can I Move Ahead with Adult Ed?

Adult education programs offer you an onramp to a better job and a college education. You can start with basic classes in reading and math and move on to a class that prepares you to earn your high school equivalency and then into a career training program. If you already have your high school diploma or equivalency, you can go right into one of our career training programs.

We offer the following industry-training programs:

- Accounting Assistant
- Business Technology
- Computer Security & Network Technology
- Auto Repair
- Welding
- Machining
- Biomedical Device Assembler
- Culinary Arts
- Early Childhood Education
- Fitness Specialist
- Medical Office Administration
- Nursing Assistant
- ...and More!
