

Molecular Diagnostics Course Series

Are you

- Fascinated by medical science and disease diagnostics?
- Inquisitive and like solving mysteries?
- Looking for a high-demand job?
- If this describes you, get ready to join one of the most exciting and fastest growing career fields of the 21st Century!!

Course Series Highlights

All courses will be taught in hybrid format

- Advanced Cellular & Molecular Biology 5CR
- Fundamentals of Molecular Diagnostics 5CR
- Introduction to Bioinformatics 5CR
- Good Lab Practice 4CR
