

Engineering Graphics

Ideas into Reality

Our highly regarded Engineering Graphics program at Lake Washington Institute of Technology provides students with applied and industry-driven training. Whether you're a recent high school graduate, making a career move or looking to upgrade your skills, our programs will give you the training you need to find the job you want.

You can earn degrees and certificates in:

- Architectural Graphics
- Civil Engineering Graphics
- Mechanical Design Graphics
- Tool Design Graphics

Accredited by the American Design Drafting Association.

"It's incredible how the instructors help you build your confidence and gain an understanding of the entire design process."

Program Highlights

- The goal of our program is to put students to work as engineering technicians and designers. Students who successfully complete our programs have a high job placement rate.
- We offer small classes and hands-on training that simulates the workplace.
- Software offerings include: Autodesk AutoCAD, Civil 3D and Revit Architecture, Dassault Systemes CATIA and SolidWorks; and Bentley Microstation.
- Our software, computers and equipment are updated annually.
- In the Engineering Graphics department you will have access to the latest rapid prototyping technologies including CNC Model Making, 3D Printing, Vacuum Thermoforming and Precision Laser Cutting. Our students can also access classes and equipment from the Welding and Machining Programs.

Designed to fit your schedule and budget, with financial aid available.

Learn from Industry Experts

Lake Washington's Engineering Graphics instructors have numerous years of industry experience and hold many professional licenses and industry certifications. They have constant contact with industry professionals, ensuring you're learning the most current skills necessary to succeed in the workplace.

From the first day of class, you'll see that your instructor has a genuine interest in your success and is committed to seeing you achieve your professional goals.

Career Opportunities

Students completing one of our degree or certificate programs will be prepared for rewarding, well-paying jobs in several industries. You'll be trained to work in a wide range of organizations, including architectural, engineering, and construction firms, product manufacturers, building design firms, and local and state architectural and civil engineering departments.

Our graduates have been hired by many leading companies, including:

- Boeing
- Capital Architects
- CH2M Hill
- Cities of Bellevue and Woodinville
- HNTB
- Ionics (a division of General Electric)
- Kappler Architects, P.S.
- NBBJ
- Panasonic Avionics
- Starbucks
- TRIAD Associates
- Washington State DOT
- Puget Sound Energy (PSE)
- Mulvanny G2 Architecture
