## Application Requirements

This degree has an academic bridge component that may be completed after admission but prior to entering the first quarter of program coursework. This allows students to complete general education coursework that may not have been taken in the course of completing the Associate level degree in their discipline. We encourage all applicants to work with an advisor in planning their path to applying to the BAS-GAME. LWTech offers coursework in the summer to facilitate student completion of the academic bridge courses.

1. **Applicants must have earned an Applied Associate Degree, Direct Transfer Associate Degree, or equivalent from a regionally accredited institution in Design related discipline - digital game design, multimedia, or graphic design.**
  - Degree equivalency is defined as completion of at least 90 college level quarter credits at a regionally accredited institution (or international equivalent).
  - If you have not completed your Applied Associate Degree, Direct Transfer Associate Degree, or equivalent you may still be considered for admission if you plan to do so prior to your planned first classes in the BAS-GAME program.
2. **Completion of at least 30 credits of General Education from the list below with a minimum of a 2.0 GPA in each class.**
  - **English Composition - 5 credits:** ENGL&101 or equivalent
  - **Social Sciences - 5 credits:** college level course
  - **Quantitative Reasoning - 5 credits:** college level math course with Intermediate Algebra as its prerequisite, or higher
  - **Humanities - 15 credits:**
    - ART 121 Intro to Drawing or equivalent,
    - ART 102 Design 1 or equivalent, and
    - ART 203 Intermediate Drawing or equivalent
3. **Minimum Cumulative 2.5 GPA across all college coursework in Associate Degree or equivalent.**
4. **Design Portfolio** with a minimum of 5 projects/maximum of 7. All projects should show evidence of design process demonstrating the research, conceptual process, sketches and iterations that led to the final result.
5. Payment of \$50 non-refundable application fee.

Students must have 30 credits of the above courses completed at the time of admission. Students who have courses to complete at the time of admission may be admitted conditionally. Students with conditional admission must develop a plan (with the assistance of the Student Success Navigator) to complete the remaining courses.

\*\*If applications exceed available space, selection will be based on:

1. Date application was received, and
2. Cumulative GPA from Associate Degree.

**Once your application is completed, make sure to click the "Submit Application" button on the last page. If you do not "Submit" your application is considered incomplete and will not be reviewed.**
