

Transportation, Logistics, and Supply Chain Management

 School of Business

Pursue a career
in a high-demand area
of business management

The **Bachelor of Applied Science in Transportation, Logistics and Supply Chain Management** (BASTLSCM) at Lake Washington Institute of Technology (LWTech) offers classes that fit your life. For individuals holding a two- year degree in business, accounting, transportation, or information technology or for those looking for additional training.

Transportation, Logistics, and Supply Chain Management is all about the business of moving and storing goods around the country and around the world. The program prepares students for in-demand positions in private companies such as Boeing, FedEx, UPS, Costco, Nordstrom, Amazon, PACCAR, Alaska Airlines, and Burlington Northern and Santa Fe Railway, state and local governments and federal agencies.

Program Highlights

- **Classes are designed for the working professional with most courses offered in the evening as hybrids (online and face-to-face), with a single meeting per week**
- Degree typically takes two years of full-time study to complete. Classes are taught by senior industry managers, many of whom are military veterans
- **Aligned with SOC codes, allowing students to gain college credits for prior military experience**
- Connections to professional organizations including the Council of Supply Chain Management Professionals, Transportation Club of Seattle, and the Warehousing Education and Research Council
- **Scenario designs and software applications address supply chain problems and financial considerations that affect global trade**
