

How to Use the Array FM system

For Students

1. Plug the earphones into the earphone jack located on the top of the unit.

2. Turn the unit on by moving the switch to the left or ON position. The unit is ready when the red light turns green.*

3. Look on the left side of the unit and check to make sure you and your instructor are using the same channel. You can also adjust the volume here.

For Instructors

1. Plug the microphone in to the mic jack located on the top of the unit. Clip the mic close to your mouth. A shirt collar is ideal.

2. Turn the unit on by moving the switch the left or ON position. You are ready to transmit when the red light turns green.*

3. Look on the left side of the unit and check to make sure you and your student are using the same channel. You can also adjust the volume here.

*If the light does not turn green, check the batteries to see if they are loaded correctly or need to be replaced.
